

We are currently under construction.

Sorry for the inconvenience.

email: info@eyedentify.com

We have ceased production of the Model 2001 retinal recognition device, because of manufacturing inconsistencies that make the quality unacceptable to us. With- in four to eight months, our plans are to develop and release a new design that is thoroughly tested; allowing us to attack the marketplace with the confidence of knowing we have met the expected, Eyedentify, standard of excellence. We look forward to your future business and thank you for your understanding patience. Respectfully,

EYEDENTIFY,INC.
